► EXPERIENCE

SOFTWARE ENGINEER / LEAD (6+ YEARS)

WISHIBAM — 12.18 / 06.19 (6 mos)

Senior developer for a SaaS e-commerce marketplace solution, enabling retailers to transition to a digital omnichannel sales strategy and compete with online e-shops

ANTILOP — 11.16 / 11.18 (2 years)

Senior developer for e-commerce platforms, mostly in the clothing industry. Worked with brands like Catimini, Tartine et Chocolat, Ysé Paris Lingerie, and Ultra Premium Direct.

DEUSLYNN — 11.12 / 10.16 (4 years)

Technical lead for a product team of 3, consisting of developers and designers, working on a social network solution that enables people to connect based on common interests

PRODUCT / PROJECT LEADER (5+ YEARS)

VEEPEE (Formerly Vente-Privée.com) — 05.23 / 08.23 (4 mos)

Senior Product Owner for a team providing solutions ensuring a seamless functioning of the company operations, in the interest millions of customers and their orders

UNIVERSIGN — 02.22 / 07.22 (6 mos)

Product Owner for the web and mobile product teams, working on the major revision project of the e-signature solution to close the gap and better compete with competitors

WISHIBAM — 06.19 / 06.20 (1 year)

Overtook the product scope of the project with the mission to improve the vision, collaboration consistency, and ensure the correct working methodology

DEUSLYNN — 11.12 / 10.16 (4 years)

Product lead and manager of a product team of 3, working on a social network solution that enables people to connect based on common interests

ALSTOM TRANSPORT — 10.11 / 09.12 (1 year)

Developed a fully workable Proof of Concept solution for the train boardcard manufacturing line, providing reliable process monitoring to members and stakeholders
